Mar del Plata, Buenos Aires, Argentina - Timezone (GMT-3)

I am a systems engineer with **10+ years of IT experience in cloud services**. **Backend solid** and *frontend enthusiast*, an **entrepreneur soul**, searching for a better world based on learning by playing, doing, and teaching from the hand of the bests.

-  Learning by playing 
-  Teaching
-  Innovating
-  Full consciousness
-    Better world

Work experience

DEPT® | Contractor for Globalization Partners

Sr. Java Developer, NodeJs and Team Leader | *December 2020 - Present*

- I lead a team of +6 team members and was in charge of the technical aspects of the service and its context.
- As the platform grown, I was involved in designing the architecture of the ecosystem of the service.

Stack: Java 8, Spring Boot, NodeJS, Express, MySQL, TypeORM, AWS CLI, AWS (codepipeline, S3, EC2, ECS, DynamoDB, SQS, SNS), New Relic.

Sr. Java Developer | *Jan 2020 - Aug 2021*

I improved the security of a monolithic application based on Veracode reports indicating security vulnerabilities. I researched to determine the right control authorization on all application endpoints (RBAC). Besides role control, I also had to investigate other security issues like XSS and others. I also integrated a third party SSO.

Stack: Java 8, Spring Boot, MySQL, Veracode, Hibernate, JUnit.

iManage | Overactive Contractor

Sr. Java Developer | *Jan 2018 - Jan 2020*

- Working on the implementation of different back-end servers for an important project of document and email management application.

Stack: Play framework and Java 11, MyBatis, Docker, MariaDB, Elasticsearch, RxJava, Maven, Jackson.

Hey Human TM

Founder | *Sep 2019 - Present*

- I built from the scratch an original idea for an educational application.

Stack: Quasar, VueJS, Firebase.

Website: [My Kids](#)

Expedia, Inc. | Globant Contractor
